Quality certificates

- **Modal Micro®**
- **Supima® Blends**
- **Oeko-Tex Standard 100 plus**

SwissBlend ModalCotton™ combines the properties of Lenzing Micro Modal and combed, extra long staple Cotton. Micro Modal, made from European beech wood and combed, extra long staple cotton are the perfect combination for luxurious appearance and supple comfort.

Fabrics made from Swiss Blend ModalCotton™ are distinguished by a soft and silky hand, which remains unchanged even after numerous washings. Due to the high dimensional stability in dry and wet state, fabrics from Swiss-Blend ModalCotton are ideal wherever a superior quality is most important.

With the new royal-spinning technology, all fibers are spun firmly into the yarn, which results in minimum hairiness and outstanding pilling properties.
